Attention : Ms. Karin Jansson

Dear Ms. Jansson,

I just wanted to express my great pleasure and gratitude since purchasing your Mastercare Back-A-Traction Swedish Back Care System.

I have been utilizing several different types of inversion therapy as part of my low back treatment regimen for more than 17 years now. I have found that with the implementation of your product last year, my results with low back and disc patients has improved dramatically. The ease of operation and patient comfort level is outstanding. The translation of the backrest during inversion makes it perhaps the single best therapy option available for passive and active lumbar traction. There is truly no product available anywhere that can do so much for such a minimal investment. Simply put, my patients love it and I love it.

Thank you again for such a wonderful product.

Most Sincerely,

  
Dr. Frederick S. Freed
