MAKE THE EPDM SURFACE
nicer and more quickly than others!

- 10 years of experience in manufacturing EPDM graphic components
- offer of more than 350 prefabricated 2D and 3D graphic components made from EPDM
- cooperation with more than 130 wet pour installation companies from 28 countries all over the world
- use of high-quality products only – EPDM (Mellos, Gezolan) and polyurethane binders (Stockmeier)

1

TO INSTALL MULTI-COLOURED GRAPHICS ON EPDM WET POUR SURFACE YOU NORMALLY NEED:

- a lot of time to shape the graphics to the needed form;
- to wait for each colour to cure before you can start with the next one;
- to prepare templates;
- to have workers skilled in art on the site;
- more time (more days) to finish the surface.

1 fast
2 easy
3 cheap
4 perfect ...

1 slow
2 difficult
3 expensive
4 bad ...

HOWEVER, THERE IS ALSO A MORE EFFECTIVE WAY OF REALIZING AN INTERESTING WET POUR SURFACE

4SOFT PREFABRICATED GRAPHIC COMPONENTS MADE FROM EPDM HELP YOU TO:

- realize a more attractive (more competitive) wet pour surface;
- install all graphic component on the top surface layer easily and quickly just in one day;
- save labour costs and material;
- make it without workers skilled in art in your installation team;
- finish the project much faster and cheaper.

4SOFT GRAPHICS
The most effective way of realizing an interesting EPDM surface

4soft products can be used in any EPDM wet pour surface, in children playgrounds, amusement and public parks, kindergartens and schools.

Our graphics make the playground areas **more attractive and fun**, giving **added value** to the surface and **minimalising the risk of a warranty claim.**

OUR PRODUCTS ARE MADE FROM HIGH-QUALITY EPDM AND POLYURETHANE BINDER.

MAKE THE WET POUR SURFACE
much faster and cheaper

Just glue it !

2D GRAPHIC COMPONENTS
made by 4soft

Smart edge – NO cracks!

THICKNESS OF 4SOFT 2D WET POUR GRAPHICS IS 10 MM. FOR UV SENSITIVE COLOURS, WE USE ALIPHATIC BINDER.

WE ARE CONSTANTLY WORKING ON IMPROVEMENTS!

- **It is a hand-made product not fabricated on a pressing machine. The reason is simple!** Prefabricated graphics looks the same as the rest of the EPDM surface.

ALL IN ONE WORKING DAY - GRAPHICS AND SURFACE

Stable and durable joins

- **No cracks inside of the graphic components –** different colours inside of the components are connected only by wet joins (no knife cutting or water jets are used).

- Specially shaped, no cutting, with oblique edges under 45° angle which means perfect adhesion of the EPDM wet pour surface around the graphics as well as stable and durable joins.

- **Each detail is made from EPDM granules without any additional surface painting.**

WAYS OF USING PREFABRICATED
2D GRAPHICS

CHOOSE THE RIGHT GRAPHIC COMPONENTS **&** **GLUE THEM**

JUST GLUE IT!

There are many ways of using our **2D graphics** to transform a dull **EPDM surface** into an entertaining and educational place. All you need is just to choose the right graphic components and glue them. The rest of the surface **installation is then very simple**.

MAKE A SIMPLY

SUPERB SAFETY SURFACE!

2D INSPIRATION
by 4soft
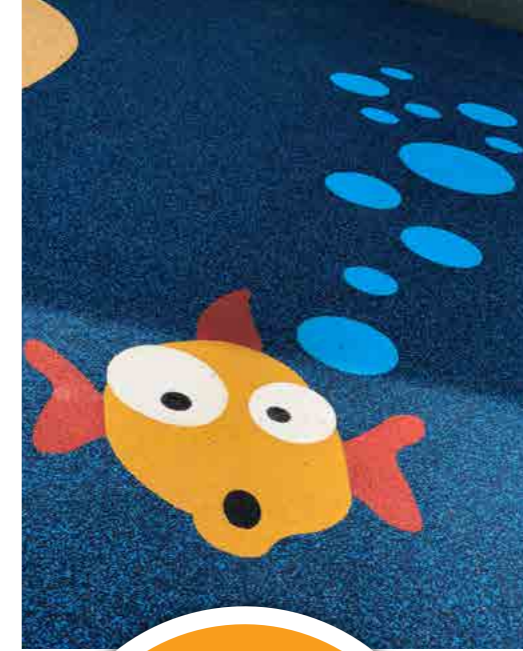

With our graphics, we turn dull surfaces into interesting places full of activities.
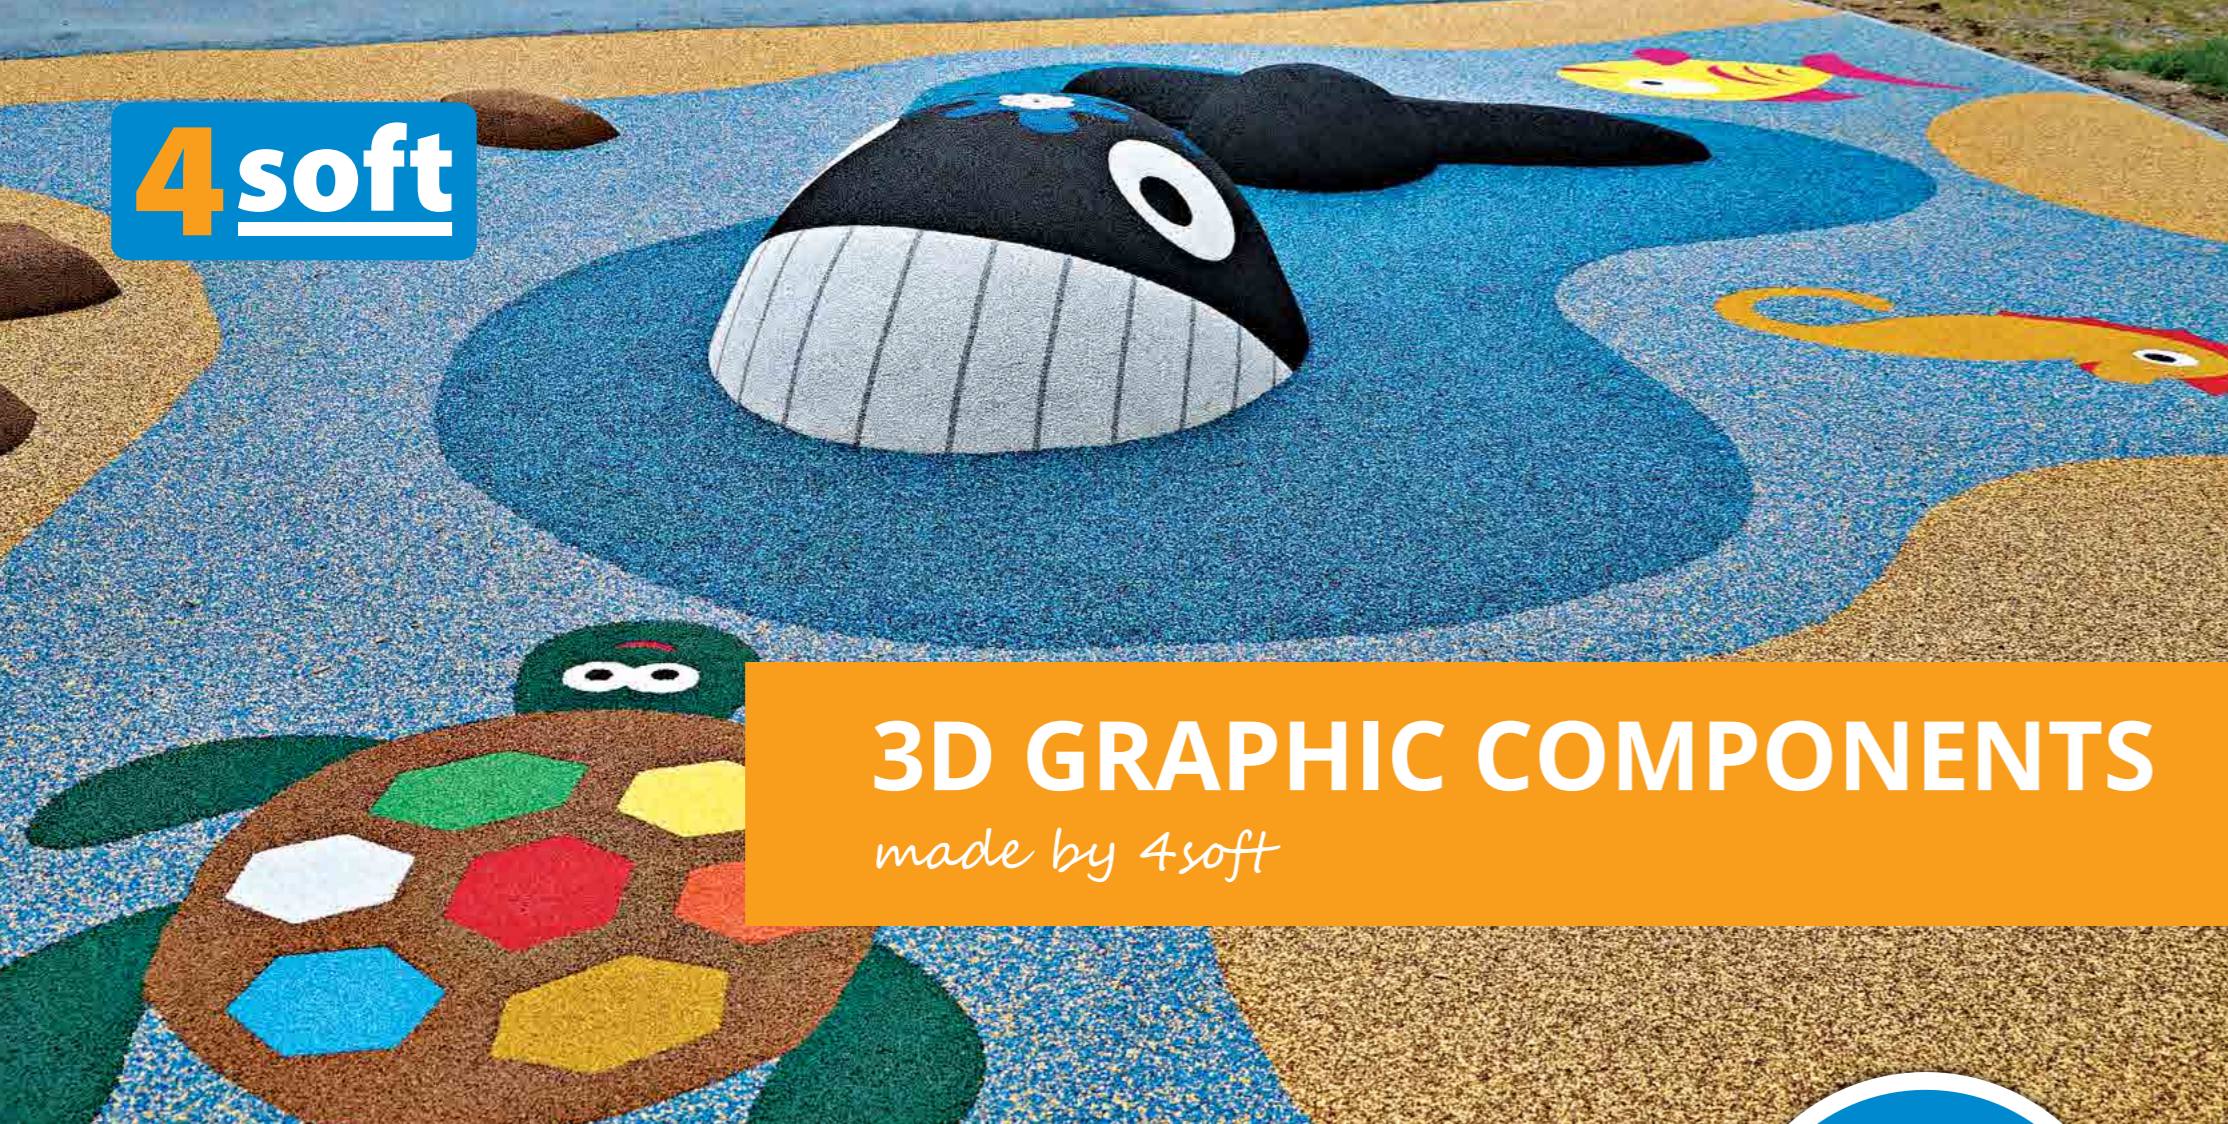

4soft

3D GRAPHIC COMPONENTS

made by 4soft

- 4soft 3D graphics are certified according to EN 1176-1 standards by TÜV authorities.
- A simple installation – just glue it.
- To improve the 3D graphics durability, the top layer is sprayed with aliphatic binder.
- To reach the super result, combine 3D shapes with standard 2D graphics.
- Combination of 3D shapes and water fountains is great for splash areas in the summer time.

4soft 3D graphics are made only from SBR on the inside and high-quality EPDM on the outside. Every particular part is **hand-made, emphasising durability and safety**. Each detail is made from EPDM granules **without any additional surface painting.**

Our 3D graphics are certified according to EN 1176-1 standards.

4soft 3D graphics are attractive playing elements in many ways – soft seats or only safe decorations of the playgrounds. Children just love them.

WAYS OF USING
3D GRAPHICS AND EPDM SURFACE

- **Installation of a 3D graphic components is simple.**

- **Just glue it on the SBR layer. All you need is enough workers on the site to manipulate with the component. Its weight depends on the size and can vary from 20 kg to 130 kg.**

- 4soft 3D shapes can also be installed on artificial turf, rubber tiles, concrete or in large sandpits as parts of playing equipment.

SIMPLE AND FAST INSTALATION – A GREAT RESULT

WHERE TO USE
4soft EPDM graphics!

THE MOST EFFECTIVE WAY OF REALISING AN INTERESTING EPDM SURFACE

THERE ARE MANY WAYS OF USING OUR PRODUCTS. WE WOULD LIKE TO SUGGEST SOME SMART SOLUTIONS FOR YOUR PLAYGROUNDS.

PLAYGROUNDS SAFETY SURFACE

SPLASH AREAS

SPORTS GROUNDS

MULTI-PURPOSE AREAS

TERRACES AND PAVEMENTS

TRAFFIC PLAYGROUNDS

WITH OUR GRAPHIC COMPONENTS, YOU CAN MULTIPLY THE PLAYING POSSIBILITIES OF A STANDARD PLAYGROUND AND A PU SURFACE BY INSTALLING SOME MORE CHALENGING GAMES AND PICTURES. IT IS AN EASY AND FAST WAY OF INCREASING THE ATTRACTIVITY OF YOUR PROJECT.

IT IS NOT ONLY A SAFETY SURFACE, IT CAN BE MUCH MORE THAN THAT.

PLAYGROUNDS SAFETY SURFACE

WITH 4SOFT GRAPHICS

PLAYGROUNDS SAFETY SURFACE

inspiration - by 4soft

IT IS MUCH MORE THAN A SAFETY SURFACE

4SOFT GRAPHICS ARE REVOLUTIONARY IN THE NECESSITY OF MAKING JUST A SINGLE INVESTMENT TO SOLVE THE PROBLEM OF CREATING ONE PLACE FOR DIFFERENT PURPOSES SUCH AS:

- small sports grounds for ball games,
- outdoor classrooms with educational features,
- places for theatre performances,
- small traffic parks for ride-on toys,
- ares for drawing chalk pictures,
- places for learning, sports, relaxation and entertainment.

MULTI-PURPOSE PLAY AREAS
WITH 4SOFT GRAPHICS

MULTI-PURPOSE PLAY AREAS

A PLACE FOR LEARNING, SPORTS AND ENTERTAINMENT

SPLASH AREAS AND WATER FOUNTAINS
WITH 4SOFT GRAPHICS

COMBINATION OF 3D GRAPHICS AND SPLASH AREAS IS GREAT IN THE SUMMER TIME. A WATER NOZZLE CAN BE PUT INTO ANY 3D SHAPE ACCORDING TO YOUR DEMAND. WATER FOUNTAINS CAN BE A PART OF STANDARD PLAYGROUNDS.

One of the great ways of using wet pour graphics is in areas with mist nozzles, in **kindergarten playgrounds, or** as refreshing points in **public areas** etc...

Get ready for the summer heat...

WATER FOUNTAINS

by 4soft

PRESS HERE TO SPLASH
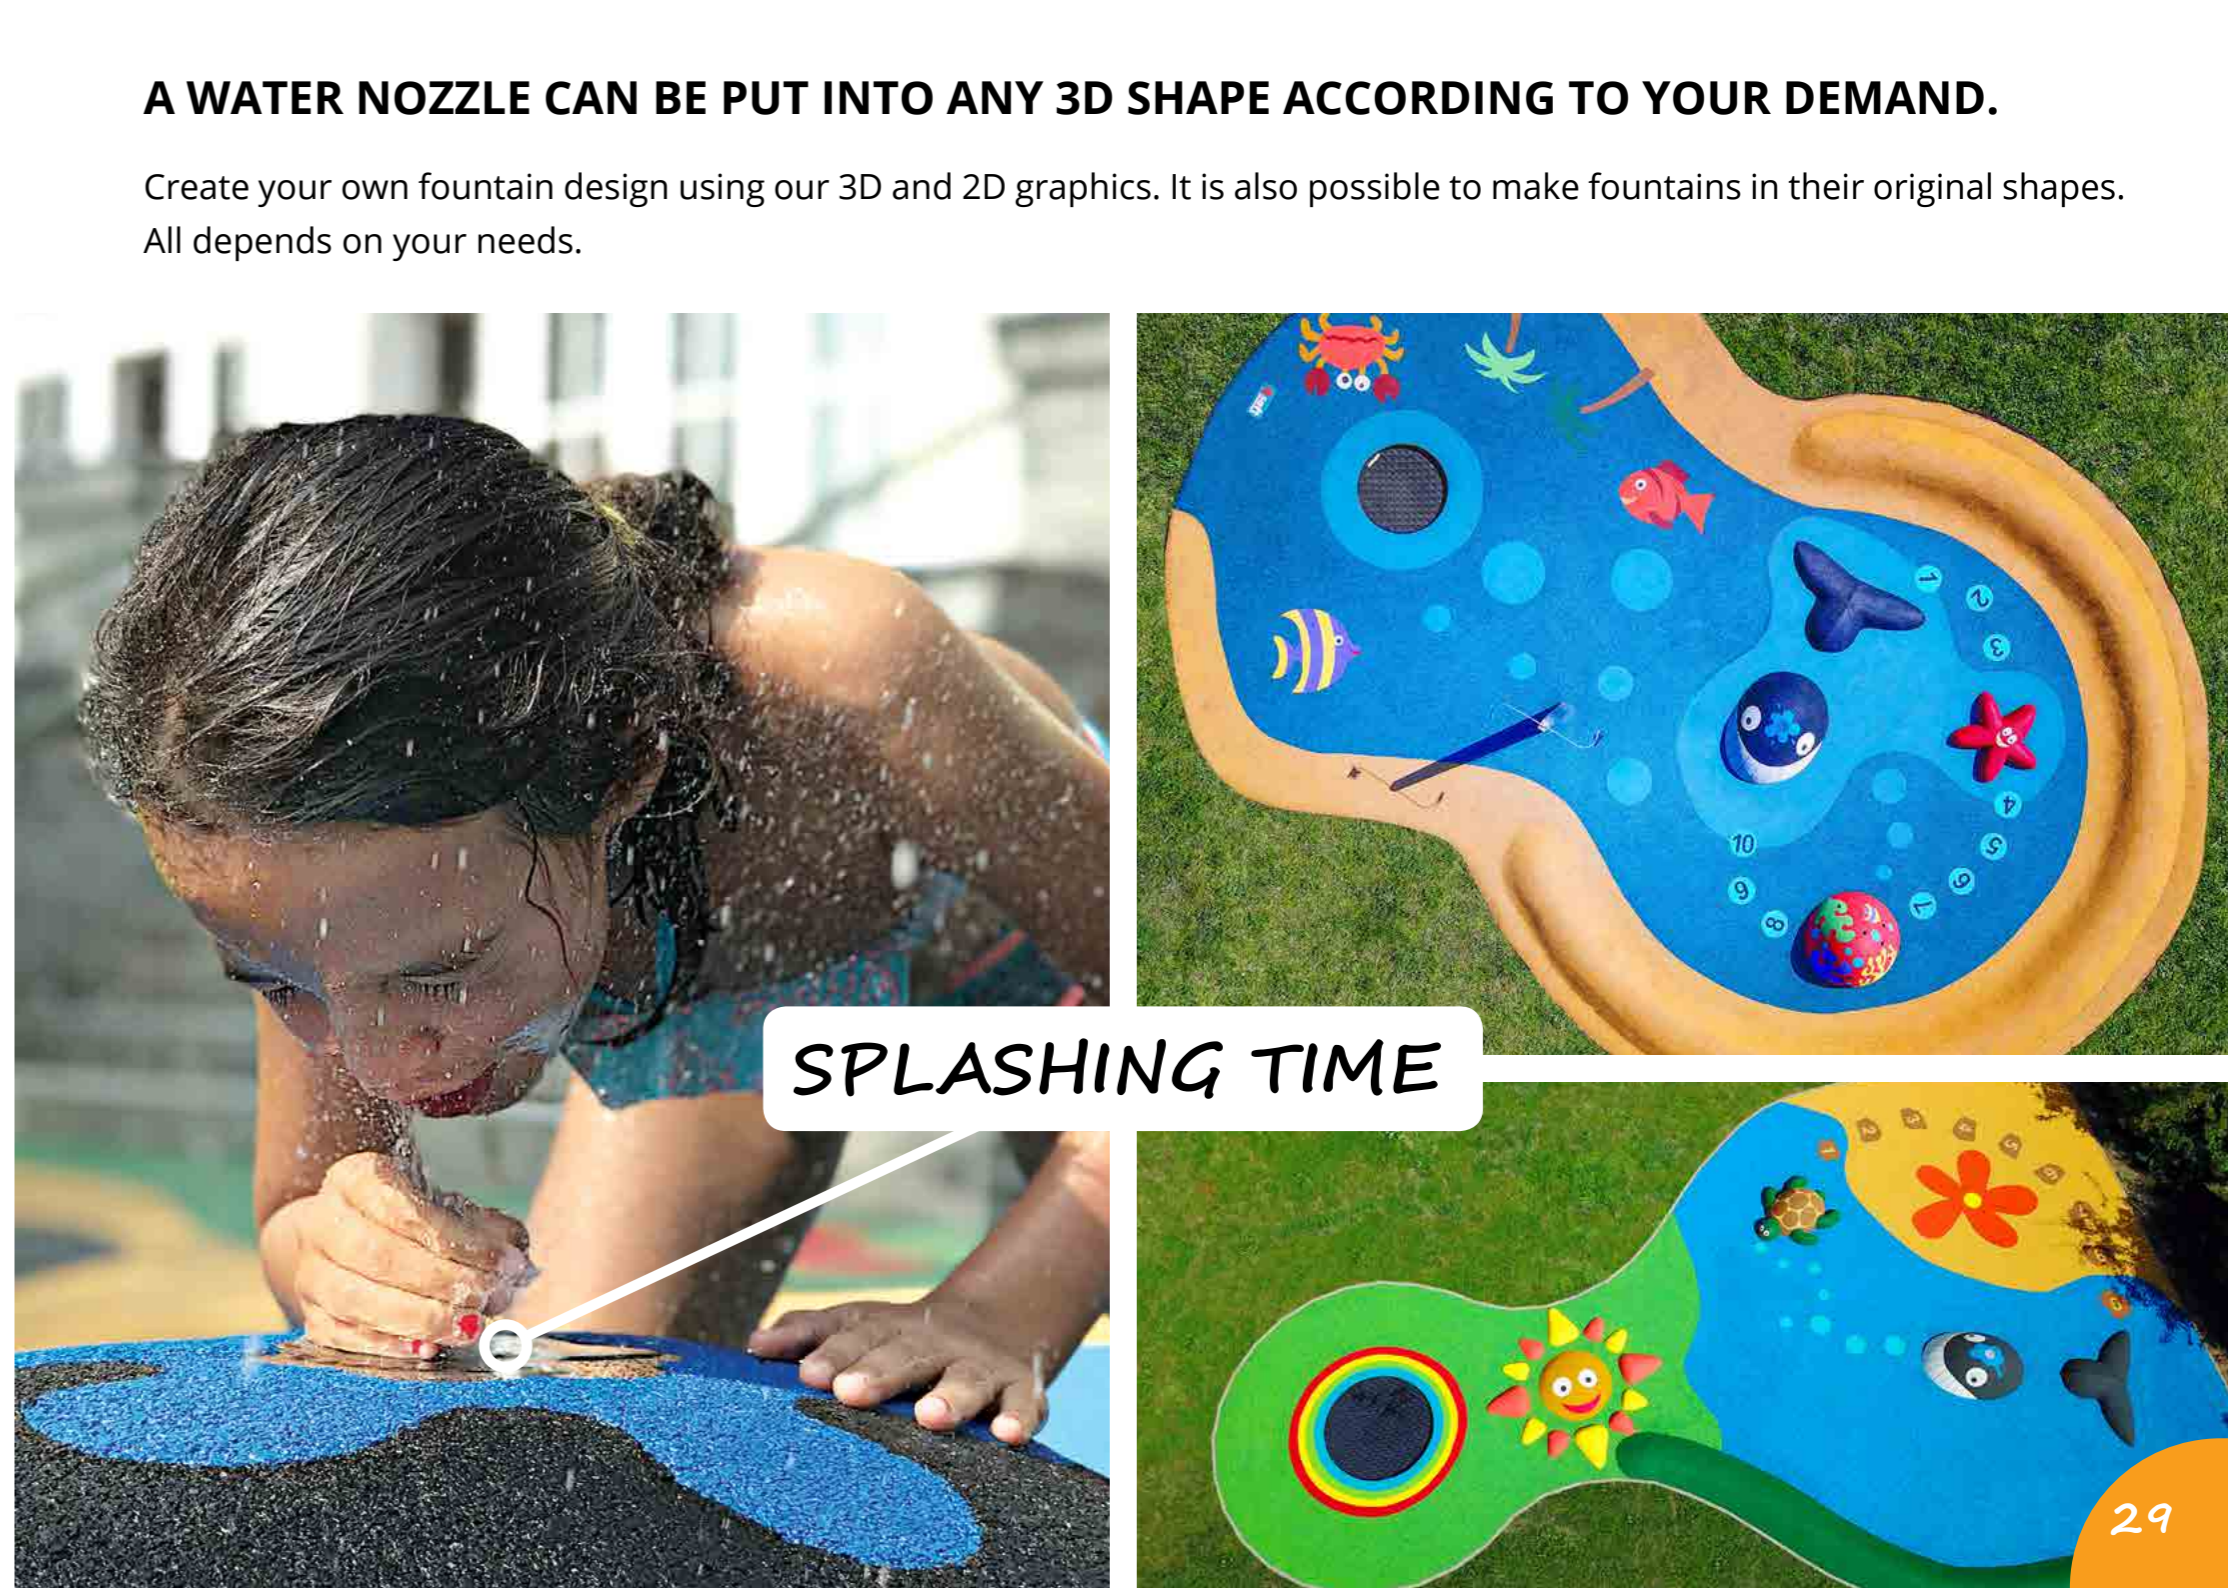

A WATER NOZZLE CAN BE PUT INTO ANY 3D SHAPE ACCORDING TO YOUR DEMAND.

Create your own fountain design using our 3D and 2D graphics. It is also possible to make fountains in their original shapes. All depends on your needs.

SPLASHING TIME

4soft

WATER FOUNTAINS
technical information

1

2

3

4
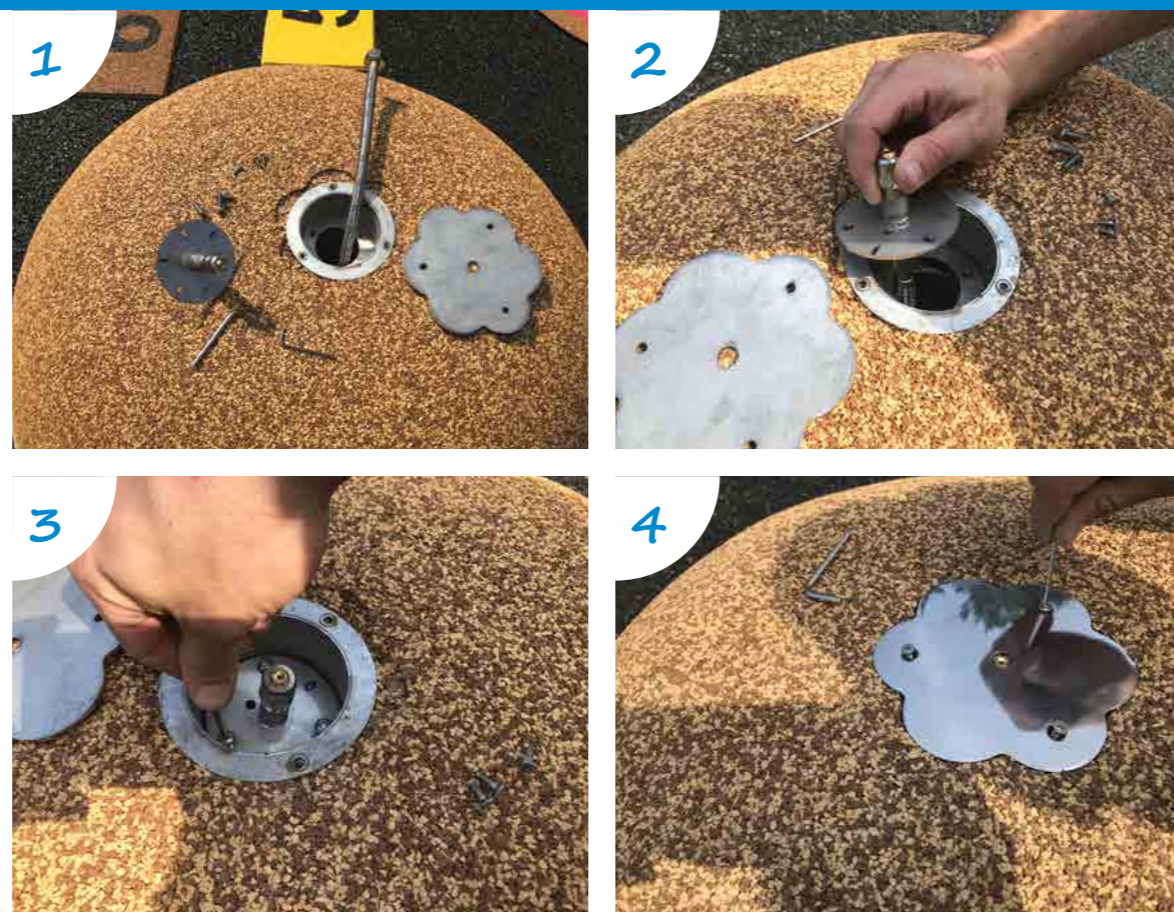

1 **fast**
2 **easy**
3 **cheap**
4 **perfect...**

4SOFT WATER FOUNTAINS (JETS) HAVE MINIMAL WATER CONSUMPTION RANGING FROM 2.6L/MIN TO 7.4L/MIN.
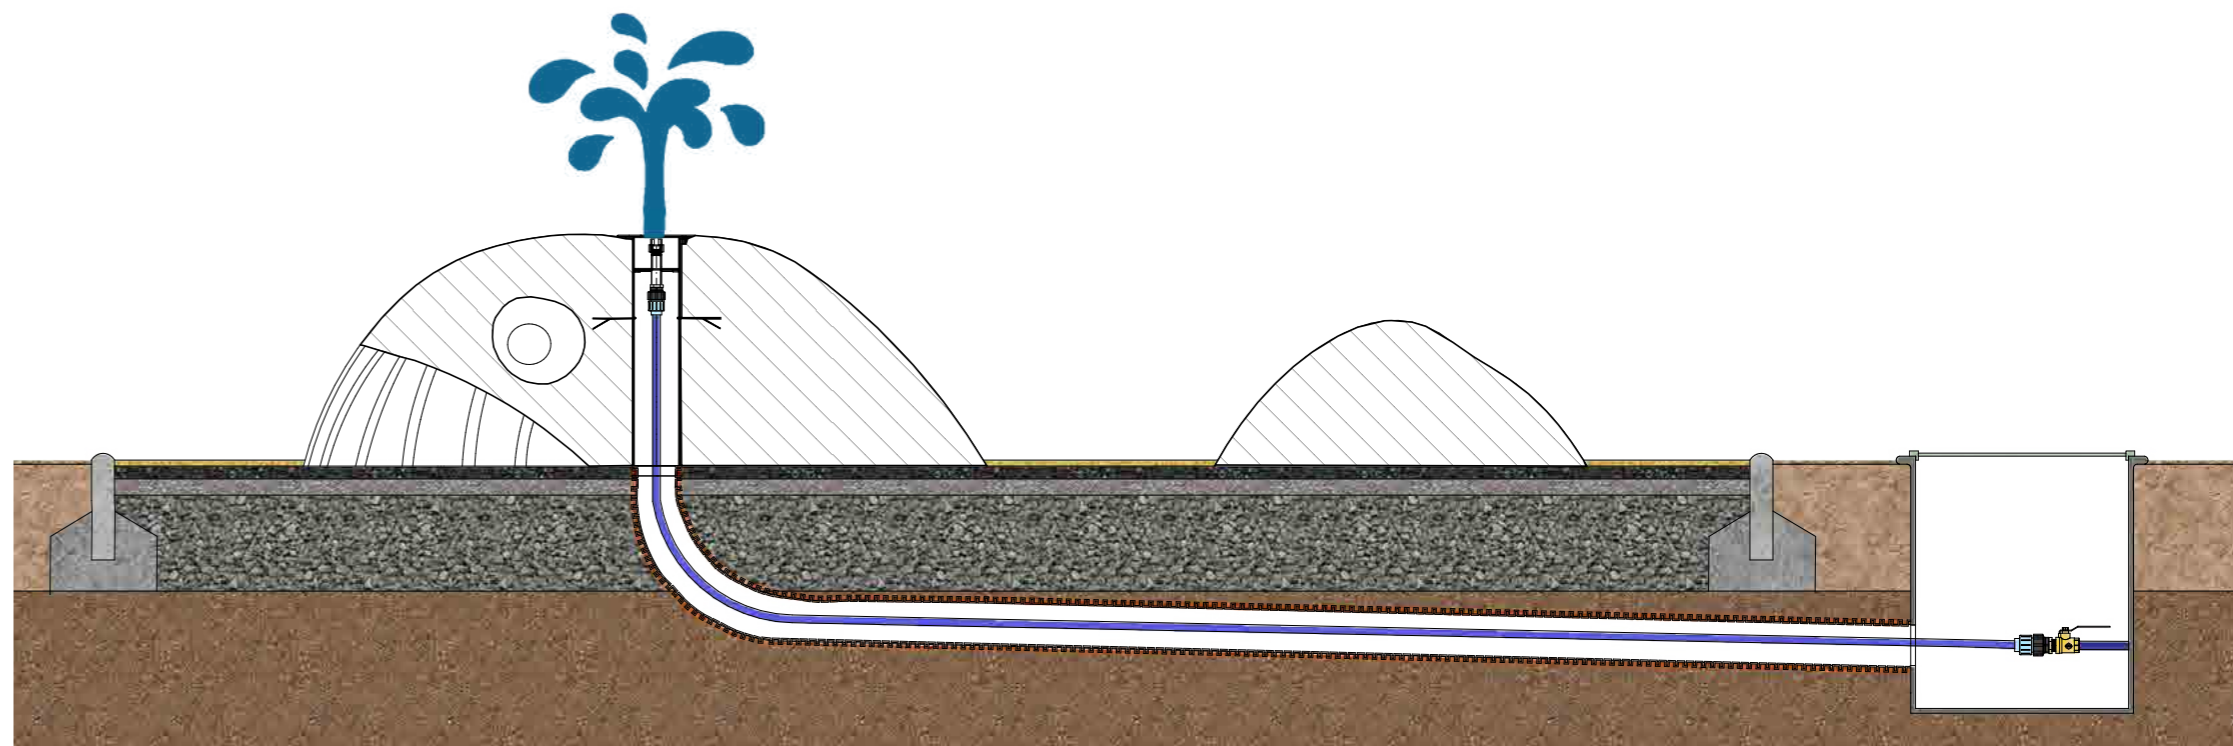

ALL YOU NEED IS A STANDARD WATER GARDEN CONNECTION WITH NORMAL PRESSURE OF 2.5-3.5 BAR.

Standard water consumption of the jet nozzles we use for 3D fountains is 3.7 l/min. However, we can provide you with different nozzles with more or less water consumption – meaning a bigger or smaller cone of squirting water.

THERE ARE TWO OPTIONS OF CONTROLLING THE OPENING AND CLOSING OF WATER CONNECTION TO THE FOUNTAIN.

- A standard **stop cock (stop tap) included**.
- Electric button – there is a possibility to set up the duration of water squirting from the fountain. For example **2 minutes** TURN ON and 1 minute PAUSE. It works with a **6V** battery – **no need to have a 220V supply.**

4soft

MAKE MORE ATTRACTIVE PLAYGROUNDS

TRAFFIC PLAYGROUNDS

WITH 4SOFT GRAPHICS

colourful traffic signs

WITH OUR GRAPHICS, IT IS EASY TO MAKE TRAFFIC PLAYGROUNDS FOR SMALL KIDS.

There is often a request to make a multi-purpose area in the form of a traffic park for ride-on toys and scooters. With 4soft graphics, the children will learn the basics of traffic education - passing over the road safely at a pedestrian crossing or recognizing the colours of the traffic lights. They can also race on the tracks with different kinds of funny and challenging

safety signs

TRAFFIC PLAYGROUNDS

inspiration - by 4soft

CHOOSE THE RIGHT GRAPHIC COMPONENTS **&** **GLUE THEM**

SPORTS GROUNDS

WITH 4SOFT GRAPHICS

4soft

Sports grounds can be more multi-functional

MAKE THE SPORTS GROUNDS TRULY MULTI-PURPOSE. USE 4SOFT SPORTS AND JUMPING GRAPHICS TO CREATE A PLACE NOT ONLY FOR BALL-GAME ACTIVITIES BUT ALSO FOR SMALL CHILDREN TO HELP THEM DEVELOP THEIR MOVEMENT SKILLS AND MAKE THE AREA MORE ATTRACTIVE TO THEM.

By using the **smartly combined amusing graphic components** and sports lines, it is possible to create a single area that meets the demands for **classic sports as well** as for children's games.

SPORTS GROUNDS

inspiration - by 4soft

Use the sports & jumping graphics

TERRACES AND PAVEMENTS

WITH 4SOFT GRAPHICS

One
surface
–
more fun
4soft

These places are usually forgotten to be used in the realisation of wet pour surfaces even though there is often an almost ready sub-base for direct installation. This makes the terraces and pavements attractive for fast and economical installation of the EPDM surface. 4soft hopscotches, geometric shapes, traffic signs, logos etc. make the children happy.

Make or renovate the terraces and pavements more creatively. You can find more ways of using the EPDM surface. It is not only a safety surface, it is much more than that.

TERRACES AND PAVEMENTS

CHOOSE THE RIGHT GRAPHIC COMPONENTS & GLUE THEM

SKOK

TUNNELS

WITH 4SOFT GRAPHICS

4SOFT HAS DEVELOPED STAINLESS STEEL TUNNELS, CERTIFIED BY TÜV AUTHORITIES, TO BE IN-BUILD INTO SAFETY SURFACE AREAS. THEY ARE VERY POPULAR PLAYING EQUIPMENT WITH MANY POSSIBLE WAYS OF DESIGN. FOR MORE INFO SEE *www.epdm-graphics.com*.

4soft tunnels are certified according to EN 1176-1 standards

MINI-TUNNEL

IT BELONGS TO 3D GRAPHICS AND IS SUPPLIED DIRECTLY WITH THE EPDM. COLOURS AND DESIGN CAN BE MODIFIED ACCORDING TO YOUR REQUEST. ITS LENGTH IS 1200 MM, DIAMETER 510 MM AND HEIGHT 650 MM.

TYPES OF TUNNELS

TUNNEL NR. 1, 2, 3
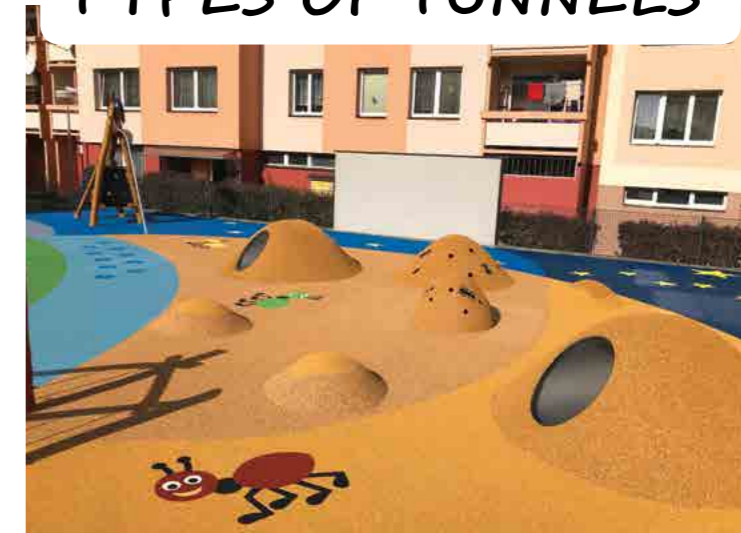

THESE TUNNELS ARE DESIGNED TO BE BUILT INTO A CONCRETE HILL. THEIR DIAMETER IS 650 MM AND LENGTH OF THE BOTTOM PART RANGES FROM 2000 MM – TUNNEL 1, 2250 MM – TUNNEL 2, 2500 MM – TUNNEL 3.

![4soft logo]

3D PLAYHOUSE
MADE BY 4SOFT

The 3D PLAYHOUSE is another playing element for children to be placed in the EPDM surface. The structure of this element consists of stainless steel covered with a certified two-layer safety surface. The 3D PLAYHOUSE can be used separately as a single element or as a part of the complete playground equipment.

The 3D PLAYHOUSE can be climbed over and used as a climbing wall. Its surface is fitted with grips enabling easier movement over the element.

A small window built in its upper part with filler panels made of Makrolife 12 mm material, which is transparent and resistant.

- No obstacles should be placed within 1.5 m from the foot of the 3D PLAYHOUSE. HIC is 1.2 m.
- The 3D PLAYHOUSE can also be made in other theme-specific modifications.
- This product was developed and designed for both outdoor and indoor use and meets the European standard EN 1176-1.

BEWARE OF THE LOW-QUALITY IMITATIONS !

ATTENTION! CERTAIN SUPPLIERS MAKE THE GRAPHIC ELEMENTS ONLY BY A SIMPLE PAINTING OR SPRAYING THE SURFACE.

These kinds of pictures are not durable and the paint gets "worn out" after a year or two and the picture disappears. Request only graphical features made from coloured EPDM granules, which retain their colour for the whole lifespan of the surface even in extremely stressed areas.

4soft graphics - no cracks, more stable and durable seams

EPDM LOGO

A GREAT WAY OF PROMOTING YOUR NICE WORK IS TO INSTALL YOUR LOGO DIRECTLY IN THE EPDM SAFETY SURFACE.

4soft can make your logo according to the data sent by e-mail.

It is not only a good promotion of your work but it can also be offered to investors, municipalities, sponsors or any other organizations that want to be visible on the playground surface.

PLAYGROUND DRAWING
BY 4SOFT GRAPHIC DESIGNERS

4soft
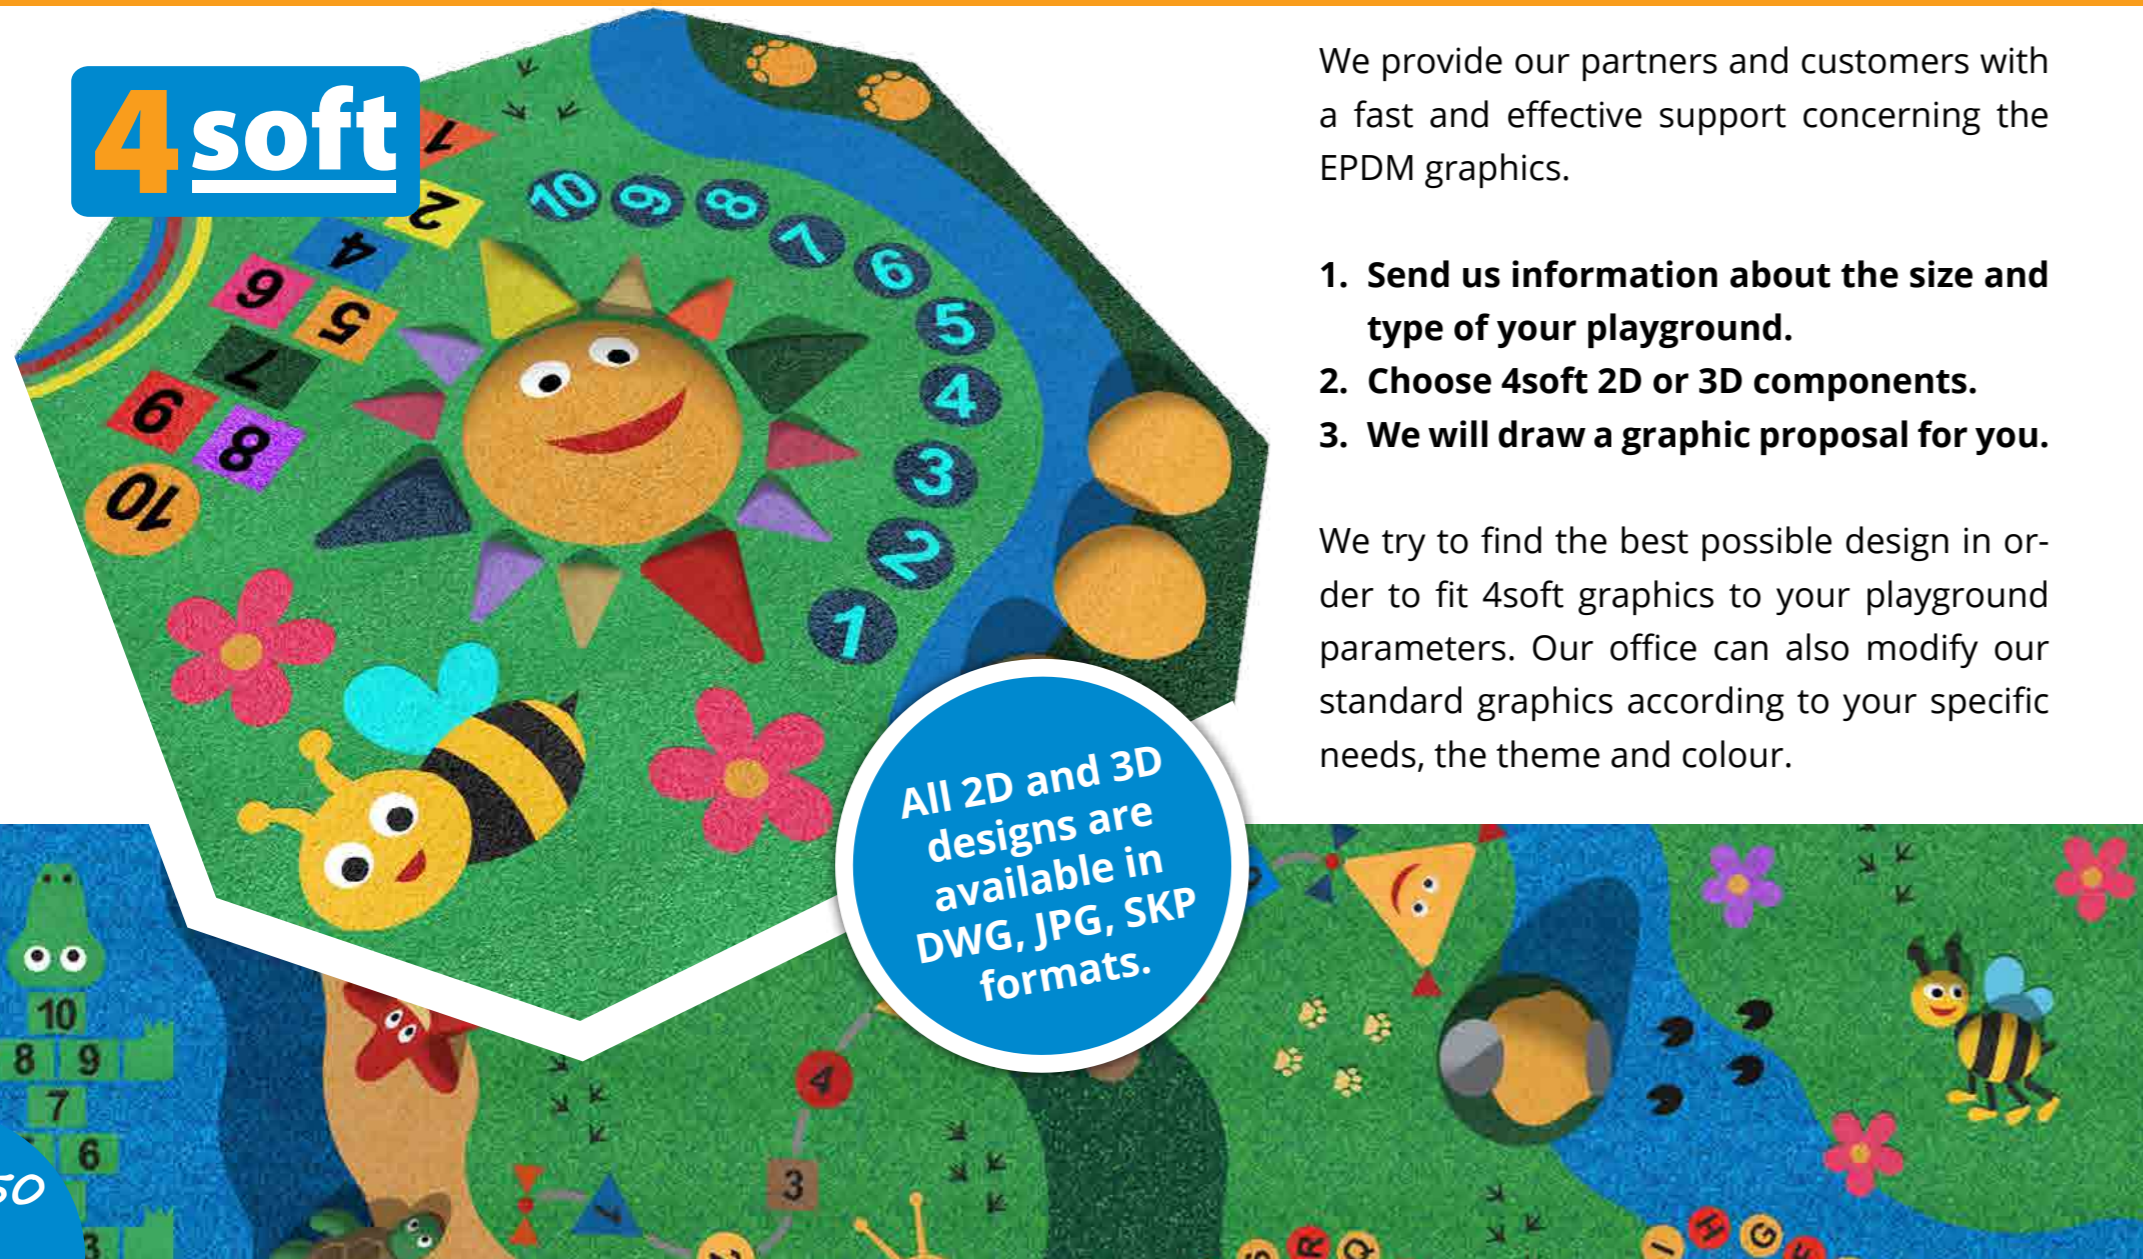

We provide our partners and customers with a fast and effective support concerning the EPDM graphics.

1. **Send us information about the size and type of your playground.**
2. **Choose 4soft 2D or 3D components.**
3. **We will draw a graphic proposal for you.**

We try to find the best possible design in order to fit 4soft graphics to your playground parameters. Our office can also modify our standard graphics according to your specific needs, the theme and colour.

All 2D and 3D designs are available in DWG, JPG, SKP formats.

PACKING OF THE
GRAPHIC COMPONENTS

We always try to find the most effective and cheapest solution for packing and transporting our products to customers. Each consignment is calculated separately according to its weight, measurements and place of delivery. It is always more effective to ship more pieces of components in one transport.

INSTALLATION GUIDES

FOR 2D GRAPHICS

JUST GLUE THE GRAPHIC COMPONENT ON THE SBR LAYER OR DIRECTLY ON CONCRETE. TAKE A LOOK AT OUR SIMPLE INSTALLATION GUIDES.

03 Mix properly the two-component glue. Use standard PU glue for artificial grass. Use the two-component glue for larger patterns or more graphics.
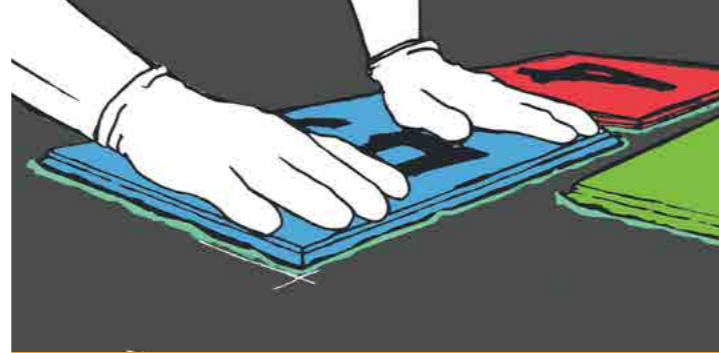

06 Place the graphic exactly and press it properly to improve the glue distribution.

01 Tools needed to measure the requested graphic and the material for gluing.
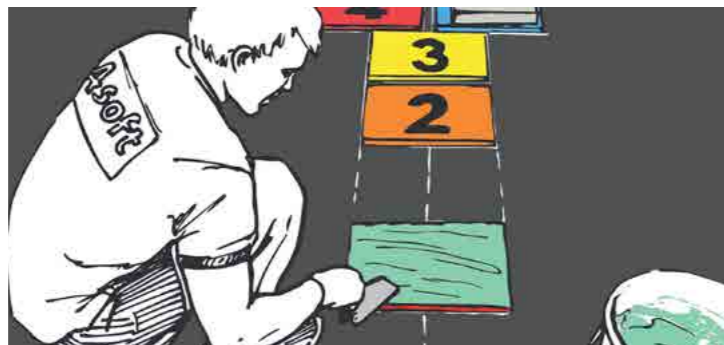

04 Spread the glue evenly on the underside of your graphic.
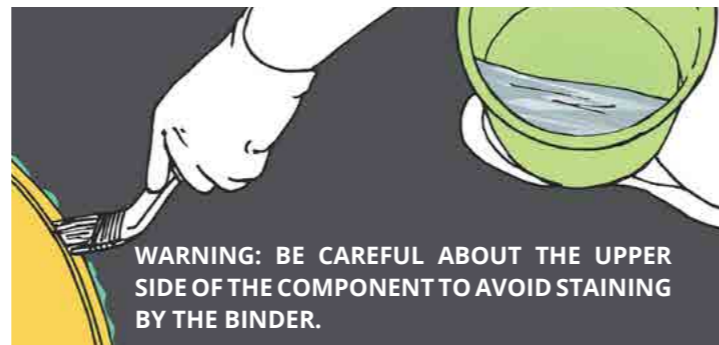

07 Apply the thick binder on the outside edges of the component to avoid their separation from the rest of the EPDM on the top layer.

WARNING: BE CAREFUL ABOUT THE UPPER SIDE OF THE COMPONENT TO AVOID STAINING BY THE BINDER.

02 Measure and copy the graphic on a cured SBR layer along with the requested design.
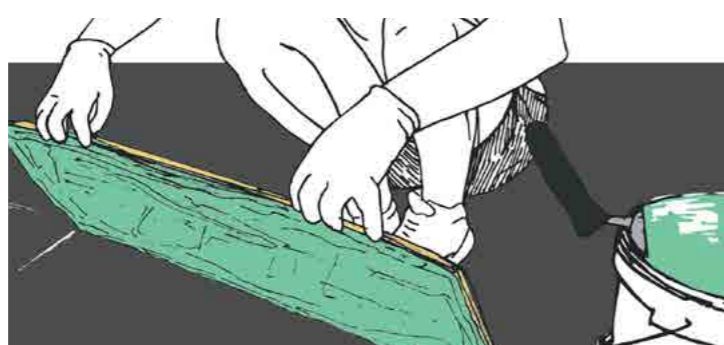

05 Make sure the glue is spread evenly and to the edge!!!
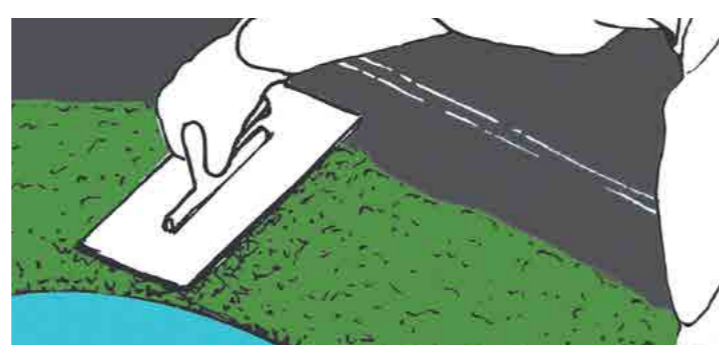

08 Spread and compress your final EPDM layer properly around the component.

52

INSTALLATION GUIDES

FOR 3D GRAPHICS

WORKING WITH 3D GRAPHICS IS VERY EASY. JUST GLUE THEM !

03 Place the 3D component and press it properly to improve the glue distribution.

06 To transport the heavy 3D anthill, use two iron bars and pass them through the holes.

01 Copy the graphic on the SBR layer along with the requested design.

04 Apply the thick binder on the outside edges of the 3D component to avoid their separation from the rest of the EPDM on the top layer.

WARNING: BE CAREFUL ABOUT THE UPPER SIDE OF THE COMPONENT TO AVOID STAINING BY THE BINDER.

07 To transport the heavy 3D ladybird or 3D turtle, we install two belts directly on them to make the manipulation easier.

02 Place one or two components and glue them directly on the SBR – be careful about the upper side of the component to avoid staining by the binder!

05 Screed and compress your final EPDM layer around your 3D component. Cartridges or salami. For example Proline T44 or Extrem FIX.

08 You can use two iron bars to attach the belts to the components. After gluing the 3D objects, the belts can be cut away or just pulled out.

4soft company itself installs the EPDM surface on more than 250 playgrounds every year. Most of them contain 2D and 3D graphics. Before we start offering a particular graphic to others, we test its effect, function and its potential for future projects. We try to develop a graphics portfolio based on our experience and intensive contact with clients and their requests.
